Working in partnership with the local community

The NCA Environmental Policy

At the NCA, we are committed to the implementation of proactive measures to help protect and sustain the environment for future generations.

We recognise the impact of our operations on the environment and aim to minimise any detrimental effects that may occur.

By working together we can contribute to making a cleaner and safer environment and ensure environmental issues remain a focal point and receive proper attention.

In delivering our commitment we will :-

Comply with relevant environmental legislation and take a proactive approach to future requirements and obligations.

Seek to conserve natural resources through the responsible use of energy, water and materials during the operation of our business

Monitor performance and aim for continued improvement by remaining aware of new developments and acting on given information wherever possible Work with suppliers who have compatible policies for managing their impact on the environment.

Through our proactive management team we will ensure that our efforts are continually reviewed, updated and communicated to all members of staff.

Encourage our Instructors to cycle to and from training sessions wherever feasible, reducing the use of company vehicles

Examples of everyday actions

Recycling of

Paper, cardboard, glass , plastic , toner cartridges.

Waste compacted to reduce number of collections.

Re-cycling of bicycles back into the local community for use in cycling activities

Saving energy by

Monitoring our use of gas and electricity consumption on regular basis. Use of

low energy light bulbs, switching off electrical equipment

Use of bicycles as a form of transport for staff

Reduction of

Waste packaging by the purchase of equipment/tools directly from the wholesaler/manufacturer.
